# Wine Country Kitchens

Fine Foods of the Napa Valley

**Wine Country Kitchens**, founded in 1995, is a specialty food manufacturer and co-packer located in Napa Valley, California. For nearly two decades we have created a collection of exceptional products that defy comparison and begin with the finest ingredients from around the world.

We employ the highest standards in quality, production efficiencies and good manufacturing practices. Our facility is fully licensed, insured and certified by third party Silliker Laboratories. These technical attributes combined with experience and dedication affords us the title of "Specialty Food Manufacturer".

## **WHAT IS COPACKING?**

Contract manufacturing, better known as a co-packer, is a company that manufactures and packages proprietary products for other companies. Contracting with a co-packer eliminates the heavy costs of overhead and equipment associated with bringing a product to market.

## **MINIMUMS AND PROJECT REQUIREMENTS**

A Batch Process Recipe (BPR) and a signed non-disclosure agreement are required prior to any detailed discussion involving your project. You may need to work with a food scientist/lab to have the BPR created for shelf stable products.

*We cannot quote co-packing projects without these two documents.*

To ensure the desired outcome of the recipe, we require a beta test run of 25-50 cases. Once the beta run has been approved by you, we will schedule the full production run.

Minimum production runs are 500 cases (12 packs) or 6,000 units, in addition to the beta run.

## **TERMS OF PAYMENT**

Our terms for co-packaging projects are 50% deposit and 50% upon completion of the project.

## **WHY USE WINE COUNTRY KITCHENS**

We have extensive experience with hot and cold filled products. The categories we specialize in are: oils, vinegars, sauces, marinades, dressings, mustards, tapenades, syrups, extracts and drink mixes.
